EXPERIENCE

Web Development Intern

ANASOFT sullia, India

Jan 2022 - Present

- Presently working on a PHP based web application for **KVG College of Engineering**. Expected Aug 2022.
- Developed a website for Madhuri Honey and working on E-commerce platform for the same as per the requirements of the client.
- Built a website for Adeeshwaraswami Basadi.

Built an Examination Portal

for **KVG College of Engineering** April 2022 - June 2022

- Created an Examination portal for Dr. KVG scholarship as per the requirements given by KVGCE.
- Over 543 students have registered and attended the Mock Test
- Due to the inefficient registration system, around 200 students couldn't attend the mock test so the portal was withheld and the management opted traditional method of conducting exam.
- Considering this whole system was built within a limited time span and by only 2 developers (me and my friend)

ACADEMIC PROJECTS

Web based projects

E-Commerce Data Management system

- Developed a E-commerce platform demo where people can sell and buy products, with increase in efficiency by 50%
- Used **Python Flask** frame work to build the web application with **MySQL database**.

Examination Portal with AI&ML

- Complete examination platform where School/College authority can conduct online examination for students with AI proctoring.
- Added features like auto proctoring and live video monitoring of students, Right-click/Multi-tab disable for avoiding plagiarism.

EDUCATION

- **Computer Science and Engineering** | **KVG College of Engineering, Sullia** | Aug 2019 - Present (Expected July 2023)
- **XII (NON-CBSE)** | **Nehru Memorial College, Sullia**

SKILLS

PYTHON JAVA C C++

HTML CSS PHP

FLASK DJANGO AI&ML

MongoDB MySQL
